

GUIDELINES FOR INSTALLING THE FOLLOWING SIGNS:

"School Bus Stop Ahead" sign (S3-1)

Upon written request from the County School Bus Transportation Director this sign can be erected when warranted per the M.U.T.C.D. The school's name, student's name, house address, student's grade level, and time the bus stops (AM, PM) to pick up and discharge passengers should be included in the request.

The sign should be installed in advance of locations where a school bus, when stopped to pick up and discharge passengers, is not visible for a distance of 500 feet or stopping sight distance, whichever is greater, and where there is no opportunity to relocate the bus stop to provide the necessary visibility. Adjustments for grades should be used in determining stopping sight distance. *The School Bus Transportation Director will determine bus stop relocations.*

Annually, each County School Bus Transportation Director should advise the Traffic Engineer of any locations where the signs could be removed due to discontinued use of the bus stop.
